Skills

Java Programming: SOA, BEPL, Struts, JSF, Vraptror, Sitemesh, Spring, Wicket, Tapestry, Velocity, Cocoon, Hibernate, JDO, Swing, Apache Axis.

Other programming languages: ASP, .NET, C#, C++, PYTHON, XSLT, JavaScript, CSS, HTML, PL/SQL.

Relational databases: MySQL (3.x, 4.x), HSQLDB, InstantDB, PostgreSQL, MS SQL Server (6.5, 7, 2000), Microsoft Access.

Build tools: Make, Apache Ant, Apache Maven.

Unit testing: JUnit, NUnit, TestNG.

XML databases: TextML Server, Exists, Apache Xindice.

Version control: Subversion, CVS, Mercurial.

Project methodologies: Merise, Scrum, RUP, Datarun, Rivard/Talbot.

Operating systems: Windows(95 to XP), Linux(Most distributions), MacOS X, FreeBSD, Solaris.

Office suites: MS Office, OpenOffice, KOffice, StarOffice.

Project planning: Microsoft Project, Planner.

Development tools: Eclipse, Netbeans, JDeveloper, JBuilder, Microsoft Visual Studio.

System administration: SSH, FTP, CVS, Subversion.

XML Technologies: XSLFO, XSLT, XPATH, DTD, XML Schéma, STX, Relax NG.

Languages: French(Excellent), English(oral:good, written:good).

Employment History**Programmer Analyst**

Direction of Universite Laval Library (Quebec, Quebec, Canada)

May 2003–Present

Most of my tasks involve Java Swing and XML technologies. Time to time I work on the server side to provide a quick help.

Projects:

- Erudit: I developped a prototype for the new version of the site <http://www.erudit.org> using Apache Cocoon. Most of the time I work on the XSL stylesheets responsible of the generation of the website using Java Swing and XSLT, plus other technologies.
- Archimede: At the beginning I only provided CSS stylesheets design and ant scripts support. I was working on the "production aspect" of this project(see the next project) I am now in charge of this project
- ETheses: Diffusion of electronic thesis using Java, Dockbook XML and OpenOffice
- ReneRichard: Generation of a HTML catalog of artistic work
- Argus: Python scripts for converting files coming into a print queue into pdf formats

Professor's assistant - java courses

Universite Laval Library (Quebec, Quebec, Canada)

October 2004–December 2004

I did mostly web servers setup and administration. I designed few applications to help students web hosting using java technologies. The rest of my time was spent assisting the professor and the students.

Stage - Programming department
Direction of Université Laval Library
June 2001–July 2001

I was providing technical help to managers. I also began a software to manager Computer Material stocks using MS Access(VBA)

Education

MBA in Information Technology, December 2004
Université Laval (Quebec, Quebec, Canada)

BAA in Information Systems, December 2002
Université de Moncton (Moncton, New Brunswick, Canada)

Interests

- Web technologies. I am interested in how technology helps improving information systems
- Open Source Software. I use daily Linux, FreeBSD and Solaris

Miscellany

I am an active member on lots of forums related to ASP, ASP.NET, Java and Linux

I am writing a free java based XML Editor called XPontus hosted at <http://xpontus.sourceforge.net>

I am also developing an XSL documentation tool <http://jxsltdoc.sourceforge.net>

I am developping few websites in ASP.net and Java using free web hosting providers.

Professional Objective

I want to create my own company specialized in Web Services consulting.
